

DARLING

Darling Song –

Strophe 1

In the darkness of the night, I hear your voice

Calling out to me with no other choice

I'm lost in the echo of your sweet refrain

I'm reaching out to you to ease the pain

Chorus

'Cause, darling, you're the light that guides

And, darling, you're the love that makes everything feel right

I walk through the fire to be your side

'Cause darling, you are the one that I adore

Strophe 2

I've been searching for the truth in all the lies

And I've been reaching for the stars in the darkest skies

But you are the one that I need

You are the one I trust

You are the one I want, you are the one I have must

Chorus

'Cause, darling, you are the light

That guides me through, leads me through the night

And, darling, you're the love that makes everything feel right

And I walked through the fire to be your side

'Cause, darling, you are the one I adore

'Cause, darling, you are the light
